

The background image shows a caregiver, a woman with dark hair tied back, wearing a blue uniform, smiling and holding the hand of an elderly woman with short, grey hair. The elderly woman is also smiling. The scene is set in what appears to be a care facility or home. The entire image is overlaid with a semi-transparent blue filter. The logo 'SDSCARE' is centered in the middle of the image.

SDSCARE

Care Staff Management Software

SDS Care Recruitment and Staff Management Software
All-in-one software for modern care providers
Manage recruitment, care delivery & staff in one platform

**Recruitment, Onboarding, Staff Management,
Route Planning, Care Plans, Compliance**

Recruit Better. Plan Better. Care Better

SDSCARE

Based in Tamworth, Staffordshire, SDS Plus Limited are owned by Logistics Solutions Limited (LSL), along with Crown SDS and Soonas Staffing Solutions. We are proud to be part of a multi-million turnover organisation with over 30 years of industry experience.

The SDS Care system combines cutting-edge recruitment technology, compliancy checking systems, route planning and task management software with decades of real-world operational expertise, tried and tested by over 3,000 operational users in the field.

Our care-based recruitment and staff management software utilises tried and tested technology and functionality, developed over the past 15 years.

- Our software is developed by our own in-house development team.
- Hosted on our own, private and secure server network.
- Our care software system is built for modern care providers.
- One powerful platform to manage your staff, care plans and visits, all in one place.
- Recruit better, gain full visibility, reduce admin and deliver outstanding care, every time.
